VIDOR
GARAGE DOOR

ONE-YEAR LABOR WARRANTY:

At Vidor Garage Door, we stand behind the quality of our work. We provide a one-year labor warranty on all garage door and opener installations performed by our team.

WHAT IS COVERED:

This warranty covers installation-related issues resulting from defective workmanship. If a problem arises due to our installation within one year of the installation date, we will correct it at no labor charge.

WHAT IS NOT COVERED:

The warranty does not cover normal wear and tear, routine maintenance, misuse, accidental damage, unauthorized repairs, or product defects.

MANUFACTURER WARRANTIES:

Garage door and opener manufacturer warranties are separate from Vidor Garage Door's labor warranty. Products and components are covered under their respective manufacturer's warranty terms and conditions. Labor costs associated with manufacturer warranty claims may apply after the one-year labor warranty expires.

LIMITATION:

Our labor warranty applies to the original installation and does not extend or renew following warranty service.
